HOW TO GET AROUND

As you will find out, Ljubljana is not a very big city, so almost everything is within walking distance. In 20 minutes one is able to walk across the whole center.

There are fairly good bus connections. You can only ride with a card “Urbana”, you can buy it (2 Euros) at every newsstand and charge it at almost every bus stop. Single fare (1,20 Euro) paid from pre-paid credit on Urbana card enables you free transfers within 90 minutes, but you have to check it every time when you enter the bus.

More people can travel with one pass; you just have to notify the driver for how many people he must set deductions for.

We recommend biking around Ljubljana ... you can rent bikes at hotel Park, at TIC (Tourist information centre) or at Bicike(lj) – city bike system:

> **Bicike(LJ)** – a brand new 24/7 self-service rent-a-bike system in the centre of Ljubljana. You can subscribe online (<http://en.bicikelj.si/>) using your credit card and get your bike right away. Occasional users can use weekly subscription – subscription by the week costs 1 € (every first hour is for free, and then the second hour 1 €, the third 2 €, and the fourth and every another 4 €, but the bike must be returned in 24 hours)
